|-----------------------------|---|------------------------|
| Active Directory | <i>WIN32 and COM Development / Administration and Management / Directory Services / SDK Documentation / Directory Services</i> (<i>WIN32 and COM Development / Administration and Management / Directory, Identity, and Access Services / Directory Services Overview</i>) | |
| 1. AD Library | <i>Directories</i> | |
| | <i>Active Directory Schema</i> | Reeël schema |
| | <i>RootDSE</i> | RootDSE |
| | <i>Active Directory Domain Services / About Active Directory Domain Services / Active Directory Schema</i> | Reeël schema |
| | <i>The Abstract Schema</i> | Abstracte schema |
| | <i>Active Directory Domain Services / Using Active Directory Domain Services</i> | |
| | <i>Searching in Active Directory Domain Services / Creating a Query Filter</i> | Ldap filter syntax |
| | <i>Managing Groups / Creating Groups in a Domain</i> | Groepen maken |
| 2. ADSI Library | <i>Directory Access Technologies / Active Directory Service Interfaces / Active Directory Service Interfaces Reference</i> | |
| | <i>ADSI Service Providers / ADSI LDAP Provider</i> | |
| | <i>LDAP ADsPath</i> | LDAP moniker |
| | <i>ADSI Objects of LDAP</i> | ADSI objecten |
| | <i>LDAP User Object / Mapping between IADsUser Properties and Active Directory Properties</i> | User object |
| | <i>ADSI Interfaces</i> | |
| | <i>Core Interfaces / IADsOpenDSObject</i> | Binden op afstand |
| | <i>ADSI Objects and Interfaces / ADSI Object Model for LDAP Providers</i> | Interfaces ADSI object |
| | <i>Property Cache Interfaces</i> | Property Cache |
| | <i>Schema Interfaces</i> | Abstracte schema |
| | <i>ADSI Enumerations</i> | Ldap constanten |
| 3. AD Search Library | <i>Directory Access Technologies / Active Directory Service Interfaces / Using Active Directory Service Interfaces / Searching Active Directory</i> | |
| | <i>Query Interfaces / Searching with ActiveX Data Objects (ADO)</i> | ADO objecten |
| | <i>Search Filter Syntax</i> | Ldap filter syntax |
